

Photography at Greenmead Historical Park

Photographers are welcome to use the park for their outdoor sessions.

We do ask that you contact our office at **(248) 477-7375** before scheduling clients. Greenmead hosts many special events during the year. When a special event takes place (including set-up and take-down), the park is not available to photographers.

Greenmead contracts many private rentals. When a building is rented, please refrain from photographing there. Respect the privacy of our clients during their Greenmead building rentals.

Please follow these park rules during your appointments:

- There is **NO SMOKING** in the village or near any historic building. Smoking is only allowed in the gravel parking lots where there are cigarette receptacles.
- **NO ALCOHOL** is permitted on the park grounds. This is a City park and violators will be ticketed by police.
- Please do not allow your clients to stand or sit on any fences or gazebo railing.
- Dogs must be on a leash at all times, in accordance with City Ordinance. Please have owners clean up after their dogs.
- Park grounds are open during daylight hours only.
- Please do not remove exterior decorations on buildings to use as your props. Please do not move park benches.
- Please do not affix any decorations, backdrops, etc. to the historic buildings, benches, railings, or fences.

There is no fee to use the park, but we do ask that you help in advertising our special events. Please stop by the office for a current schedule.

Preserving Yesterday for Tomorrow
