“**Rehabilitation**” involves milling (grinding) partial depth the existing pavement, crack repairs, curb and gutter repairs and placement of two (2) lifts of Hot Mix Asphalt (HMA) overlay. Driveway approach repairs, if required for road work.

\* “**Pulverize Rehabilitation**” involves full depth pulverization of a flexible pavement, grading of the new aggregate base if necessary, removal of excess or unsuitable spoils, placement of new asphalt pavement in two (2) lifts of Hot Mix Asphalt (HMA) overlay that is 4-inches in thickness, subgrade, installing portions of a new driveway and side street approach improvements, sidewalk removal and replacement, drainage improvements and restoration. Mailboxes along the edge of the street may need to be removed and reset based on the new elevation of the road.

\*\* Note: Limited portions of Filmore, Irving and Myron Avenue will have pulverization treatment
